OFFICE OF SPECIAL OPERATIONS

19 October 1950

MEMORANDUM FOR: JOINT TRAINING COMMITTEE

SUBJECT: Request for Established System of Debriefing for Intelligence Information

1. Orders in effect in OSO and OPC provide for the consignment to OSO of OPC intelligence, gathered as a byproduct of its work. This material is to include the results of debriefing.

2. Last week a question on the latest information available on [ ] security was asked of us. The question was one of the greatest immediate importance to the Army.

3. It was discovered that OPC had in training two men who could be excellent sources for this problem. Mr. [ ] was asked to do an urgent job of "debriefing". The resulting paper was an outstanding intelligence contribution.

4. It is requested that the Committee give consideration to the establishment of some system within TRD whereby intelligence information gained by such "debriefing" shall be regularly sought and written up by TRD. In the cases where OPC personnel is involved the channel would be from TRD via ISB/OPC to ICS/OSO.

5. Such information is of particular importance in areas where it is obvious that OSO coverage is poor. Special cases in major areas, e.g., [ ] should not be excluded.
